EDUCATION

ABES engeenering college

MCA

Uttar Pradesh, Ghaziabad

2024 - 2026

University of Delhi

Bachelors in Physical Science + CS

Uttar Pradesh, Delhi

2021 - 2024

Higher Secondary

89

Uttarakhand, Haridwar

2020 - 2021

TECHNICAL SKILLS

Programming: Java, Python, Javascript

Web Development: HTML, CSS, NodeJS, React

AI/ML: Pandas, NumPy, Matplotlib, Data Analysis

Database Management: MySQL, MongoDB

Libraries and Tools: Git, GitHub, VS Code

ABOUT

- I am an MCA student with a strong foundation in computer science concepts such as programming, databases, software, engineering and computer networks.
- As a fresher, I am eager to apply my theoretical knowledge to real world projects and continuously enhance my technical and problem solving skills.
- Quick learner with excellent communication and problem solving ability.

PROJECTS

- **Project 1 AI Resume Analyzer**, Tech Stack: Java, Spring-Boot, React, Gemini, MySQL. Developed an AI powered web application that analyzes resumes and provides ATS friendly feedback. Integrated LLM APIs to identify missing keywords, skill gaps and formatting improvements. Implemented secure resume upload, text extraction and personalized recommendations. Build REST APIs and a responsive dashboard for resume analysis and result visualization
- **Project 2 AI Code Reviewer**, Developed an AI code Reviewer that analyzes code quality using Gemini API. Implemented automated bug detection, code optimization suggestions, and best practice recommendations. Build RESTful backend services and an interactive REACT based frontend for seamless code review. Enhanced developer productivity through instant AI generated feedback and explanations
- **Project 3 Telecom customer Churn Analysis**, Cleaned and processed raw telecom dataset to ensure data quality. Created visual reports bar charts, pie charts, histograms to identify churn trends. Handled missing values and ensures data quality before visualization and analysis

EXPERIENCE

- **AI/ML Trainee (Chetu pvt ltd)**, Cleaned and preprocessed datasets using Pandas Python NumPy to improve data quality. Performed EDA and created visualizations using Matplotlib to identify trends and insights. Improved application performance by optimizing database queries.

SUMMARY

- Full-stack developer with knowledge in java, mongoDB and SQL experience building responsive websites and REST APIs
- Passionate about problem-solving and scalable applications

SOFT SKILLS

- **Teamwork** problem-solving, communication
- **Solved Hackathon Leetcode problems**, coding challenges and contributed GitHub-
